

The benefits of the innovations are more void-fill volume, more convenience, increased ergonomics, and more productivity.

- **More void-fill for best productivity:** The new PAPERplus® Shooter uses a very effective crimping technique to produce paper pads that offer enhanced compression strength over competitive products. You therefore get a better yield from the paper roll.
- **On demand mode for more convenience and productivity:** The preset lengths are automatically reproduced when the operator takes out the ready pad. More parcels during the same time. Controlled Cost in-the-box!
- **Constant speed 150m/min for more productivity:** There is no time wasted waiting for the paper pads. Increased throughput!
- **Extended length by foot pedal for hands-free operation and increased ergonomics:** Operators are still able to produce longer paper pads, than preset in case of greater volumes for larger void applications.
- **Automatic end of paper roll detection** for effective and easy roll changes.

**More solutions from one source.**

# New PAPERplus® Shooter on demand

The evolution of the existing PAPERplus® Shooter is designed to save time and money in packaging processes. The new PAPERplus® Shooter enormously improves the volume of void-fill and the convenience for the operators.

Due to the new, more powerful PAPERplus® Shooter version, the system achieves a new high quality void-fill that is unique in the market.

The performance in the void-fill volume is the new standard for paper based void-fill applications.

The innovative new PAPERplus® Shooter on demand is an umbrella term for a range of innovations used to lower paper consumption and enhance the performance at the same time.

## Specifications

**Size:** 1750 x 600 x 600 mm  
**Weight:** 29 kg  
**Power:** 230 V

What are typical applications for the new PAPERplus® Shooter?

The new PAPERplus® Shooter on demand is ideal for hand tearing and filling with kraft paper and newsprint, and of course competitive paper products.

Our Protective Packaging Guide recommends this product for:

✓ Void-Fill
